Town of Wappinger

Dear Ms. Ogunti:

The following is in response to your submission to this office consisting of SEQR information for the above project.

1. This Department has no objection to the Town Planning Board serving as the lead agent for SEQR.
2. If this project results in an increase in water or sewage usage or a change in use of the facility (for example - increase in building square footage), detailed plans and specifications must be submitted to this Department by a New York State licensed professional for review and possible approval of the water and wastewater treatment systems. Reference is made to the Dutchess County Sanitary Code Articles 5 and 19.
3. The project proposes to install new fueling pumps for the purpose of dispensing to individual consumers used in commercial applications. Please demonstrate compliance with Local Law No.2 of 2024 Regulating Hazardous Sources in Proximity to Public Water Supply Sources, Aquifers and Wetlands (see attached letter).

Should you find that we can be of assistance, please contact us at (845) 486-3404.

Very truly yours,
