Town of Wappinger

Dear Ms. Ogunti:

The following is an updated response to your submission to this office consisting of SEQR information for the above project.

1. This Department has no objection to the Town Planning Board serving as the lead agent for SEQR.
2. If this project results in an increase in water or sewage usage or a change in use of the facility, detailed plans and specifications must be submitted to this Department by a New York State licensed professional for review and possible approval of the water and wastewater treatment systems. Reference is made to the Dutchess County Sanitary Code Articles 5 and 19.
3. Upon further review of the proposed project and section 3(C) of the "Aquifer Law" (Local Law No. 2 of 2024), a determination has been made that no further action is required for compliance through this law with respect to this project. Section 3(C) states, "Nothing in this Local Law shall be interpreted to prohibit an existing and operating facility from continuing operations."

Should you find that we can be of assistance, please contact us at (845) 486-3404.

Very truly yours,
